

U.S. 17 Multi-Use Trail Project Development and Environment Study

From S.R. 40 to the Volusia/Putnam County Line Volusia County

Financial Project Identification (FPID) No.: 439876-1

Newsletter No. 3 (Final)

November 2020

The Florida Department of Transportation (FDOT) has completed the Project Development and Environment (PD&E) Study for a multi-use trail along U.S. 17 from State Road (S.R.) 40 in Barberville to the Putnam County Line. This 13.7 mile long multi-use trail will close a gap in the St. Johns River to Sea (SJR2C) Loop Trail.

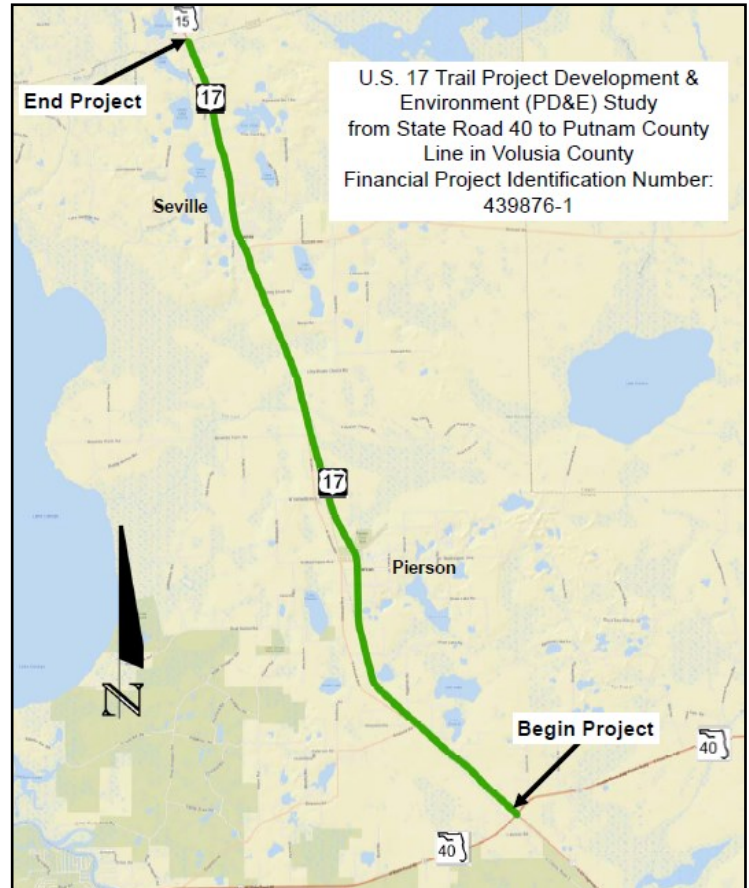

As part of the Shared-Use Nonmotorized (SUN) Trail system, the SJR2C Loop Trail is a 260-mile multi-use trail system that will link together several communities including St. Augustine, Daytona Beach, Titusville, DeLand and Palatka.

The trail alternatives developed during this PD&E Study and the associated social, economic and environmental analyses, were evaluated according to the requirements of FDOT's PD&E Manual. Alternatives were presented at a public meeting held in May 2019. After receiving and considering input from local partners, residents and various stakeholders a recommended alternative was selected.

The recommended alternative proposes a 12-foot-wide paved multi-use trail located along the east (northbound) side of U.S. 17. The project is now eligible to advance to the design phase as funding becomes available.

Additional information regarding the PD&E Study, including engineering and environmental documents, is available on the project website at www.cflroads.com/project/439876-1.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Jennifer Smith, FDOT District Five Title VI Coordinator, by email at Jennifer.Smith2@dot.state.fl.us.
