

# Intersection Improvements

Orange Blossom Trail (U.S. 441)  
at Clarcona-Ocoee Road

Orange County

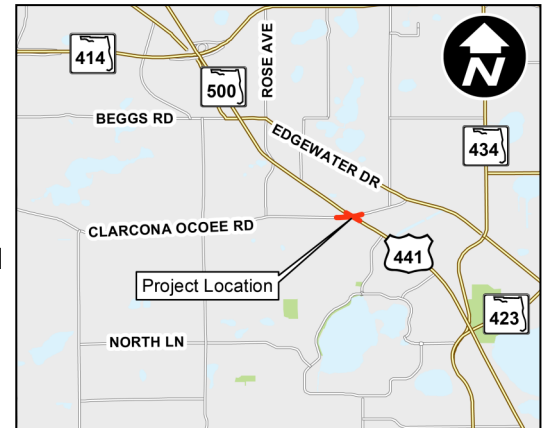

Financial Project Identification (FPID) No: 445772-1

## Project Description

The Florida Department of Transportation (FDOT) is designing improvements to the intersection of Orange Blossom Trail (U.S. 441) and Clarcona-Ocoee Road as recommended in a 2019 safety study. The project proposes to reconstruct and upgrade the existing traffic signal equipment to enhance visibility and safety for drivers and pedestrians. Upgraded equipment includes additional signal poles with new signal heads, as well as new pedestrian signals.

The project also plans to extend the eastbound right turn lane on Clarcona-Ocoee Road and construct a 2-foot-wide traffic separator next to the left turn lane on Clarcona-Ocoee Road east of the intersection. Additionally, the southeast corner of the intersection will be widened and a truck apron added to improve safety for trucks turning right onto Clarcona-Ocoee Road. Other pedestrian safety improvements include reconstructing the islands in the northwest and southeast corners of the intersection to provide a stopping area for those crossing the roadway, realigning crosswalks, and reconstructing sidewalk and curb ramps to meet current Americans with Disabilities Act (ADA) standards.
