S.R. A1A Intersection at S.R. 518 (Eau Gallie Boulevard)

Brevard County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is beginning a safety project at the intersection of State Road (S.R.) A1A and Eau Gallie Boulevard (S.R. 518) in Indian Harbour Beach. The proposed improvements will remove the existing free-flow right turn lanes and construct new right turn lanes that will be under signalized control. The project will also add a second westbound lane on S.R. 518, lengthen the left turn lane from eastbound S.R. 518 to northbound S.R. A1A, and create dual left turns from northbound S.R. A1A to Eau Gallie Boulevard. Traffic signal upgrades are planned, and improvements to enhance pedestrian safety include construction of a new midblock crossing just south of the intersection.

WHAT TO EXPECT

Motorists should expect lane closures throughout construction. Electronic message boards and other signage will be used to alert motorists of traffic changes. Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing, as the contractor must place different layers of asphalt during various phases of construction. Road conditions during construction will become less apparent as the project progresses. Pedestrian detours will be placed in areas where the sidewalk is inaccessible during construction. Motorists and pedestrians are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida Roads website, www.cflroads.com.

CONTRACTOR

Masci General Contractor, Inc.

PROJECT COST

\$3.7 million

PROJECT START

January 2024

ESTIMATED COMPLETION

Spring 2025
