

RESURFACING AND DRAINAGE IMPROVEMENTS

Financial Project
Identification
(FPID) No.:

445215-1 and
444992-1

U.S. 1 from Post Road to Pineda Causeway

Brevard County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is milling and resurfacing U.S. 1 (State Road (S.R.) 5) from Post Road to Pineda Causeway (S.R. 404) in Palm Shores, and rehabilitating the existing drainage outfall to the Indian River on U.S. 1 at Madrid Drive, reconstructing the portions of the outfall that are beyond rehabilitation.

The project will also make improvements to interconnect the traffic signals for approximately 1.8 miles south of the project between the signalized intersections of Lake Washington Road, Parkway Drive and Post Road. The interconnected signals allow the county to make coordinated updates in signal timing as needed to improve operation.

WHAT TO EXPECT

Motorists should expect lane closures throughout construction. Electronic message boards and other signage will be used to alert motorists of traffic changes. Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing, as the contractor must place different layers of asphalt during various phases of construction. Road conditions during construction will become less apparent as the project progresses. Pedestrian detours will be placed in areas where the sidewalk is inaccessible during construction. Motorists and pedestrians are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

OHLA USA Inc.

PROJECT COST

\$11.3 million

PROJECT START

January 2024

ESTIMATED COMPLETION

Spring 2025
