

Conway Road (S.R. 15) at Simmons Road Safety Improvements

Orange County

Financial Project Identification (FPID) No.: 992100-3

Project Description

The project location is at Conway Road (State Road (S.R.) 15) and Simmons Road in Orlando.

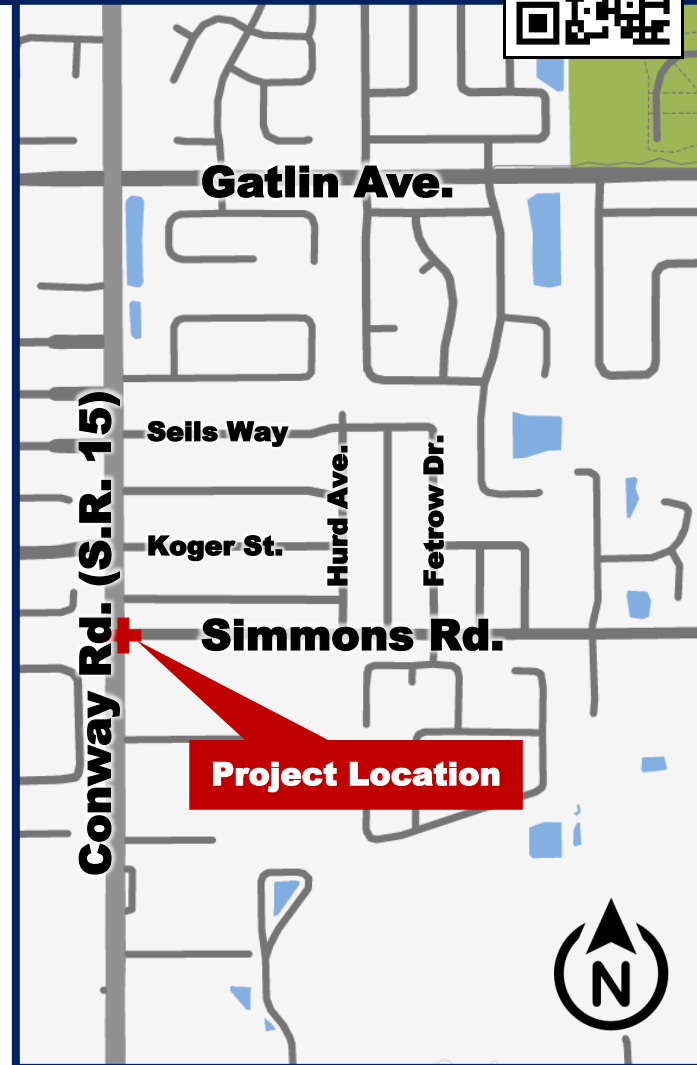

A study was conducted for the intersection of Conway Road (S.R. 15) at Simmons Road in July 2019. Based on the data collected, it was recommended that the Department converts the full median opening at this intersection into a bi-directional median opening.

This change will continue to allow

- Northbound and westbound right turns;
- Northbound U-turns; and
- Southbound left turns onto Simmons Road.

Westbound left turns onto Conway Road will be prohibited at this intersection.

These improvements will help reduce the number of areas where vehicles cross paths, improve traffic flow, and make the roadway safer for motorists.

Project Status and Estimated Costs*

Design:	Ongoing: Completion Early 2022	\$	10,800
Right of Way:	Within Existing		N/A
Construction:	Funded: Anticipated Spring 2022	\$	25,000

*subject to change
