

MASON AVENUE (S.R. 430) CORRIDOR PLANNING STUDY

From N. Clyde Morris Boulevard to N. Beach Street

FM Number 446756-1

Typical Section Renderings

Existing

Potential Shorter-Term Improvements

- Improvements included as part of an upcoming FDOT resurfacing project, scheduled for construction in 2024
- Traffic signal improvements, such as the addition of mast arms and upgraded pedestrian signals
- Addition of intersection/crosswalk lighting
- Hardened centerline (e.g., inside curb with added delineators)
- **Raised mid-block crossings, with pedestrian hybrid beacon, in-pavement lighting, and flashing signage (*)**
- Accessible Pedestrian Signals (APS) - audible push button technology
- **Construction of sidewalk, where one does not exist (*)**
- **Rain gardens (*)**
- Landscaping opportunities
- Consolidate, combine, and/or modify driveways

(*) Improvement shown graphically within proposed rendering

West of Edwards Street - Facing Westbound

Proposed

West of Edwards Street - Facing Westbound

Existing

Potential Longer-Term Improvements

In addition to the shorter-term improvements listed above, the following improvements will be implemented:

- **Moving existing outside curb or adding new curb (*)**
- **Reconstruction of the drainage system (*)**
- **Construction of 10-foot shared-use paths on both sides of the roadway (*)**
- **Raised intersections/crosswalks with bollards (*)**
- **Adding tree grates (*)**
- Enhanced landscaping opportunities
- Consolidate, combine, and/or modify driveways
