

# Conway Road (S.R. 15) Improvements from Devonshire Lane to Lake Underhill Road

Orange County

Financial Project Identification (FPID) Number: 447090-1

## Project Description

The Florida Department of Transportation (FDOT) is planning improvements along Conway Road (State Road (S.R.) 15) from Devonshire Lane to Lake Underhill Road.

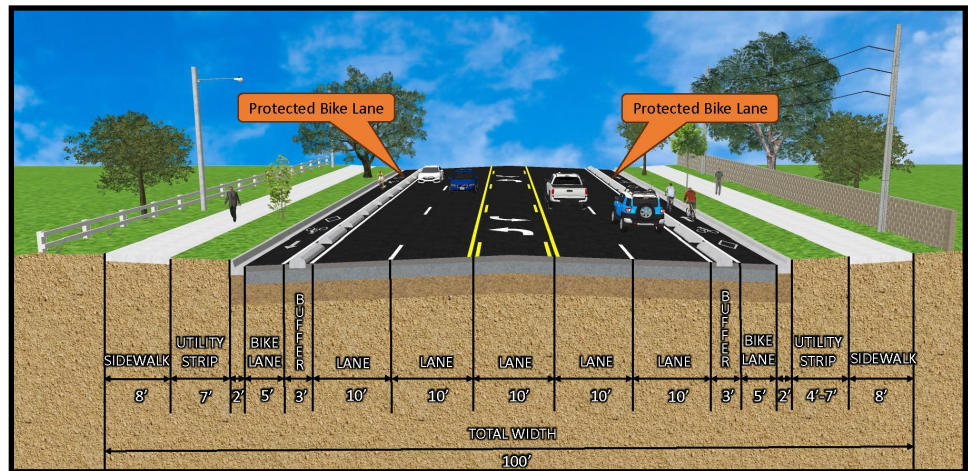

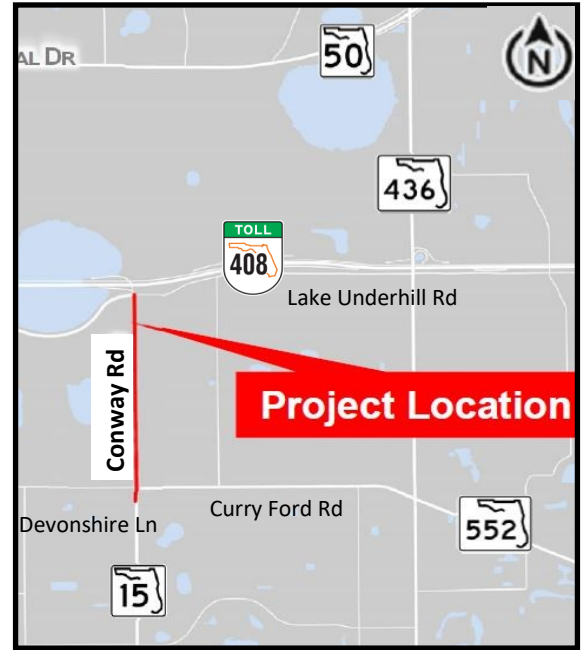

The purpose of the project is to repave this section of Conway Road and introduce features to enhance safety for all roadway users.

Through extensive community engagement, the original design concept has been revised to maintain access to most side streets.

The project also plans to create defined turn lanes at some locations along the corridor.

To improve mobility and connectivity for bicyclists, the project proposes to restripe the lanes to provide bicycle lanes on each side of Conway Road.

Other proposed safety improvements include installing or upgrading midblock pedestrian crossings with lighting, signage and median pedestrian refuges. The right turn lanes at the Lake Underhill Road intersection will be reconstructed to provide shorter pedestrian crossings.
