

ROADWAY RESURFACING & SAFETY IMPROVEMENTS

**Financial Project
Identification
(FPID) No.:**
448793-1

U.S. 1 from Myers Drive to Crane Creek Bridge

Brevard County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is implementing safety and operational improvements on U.S. 1 (State Road 5) from Myers Drive to the Crane Creek bridge in Melbourne and Palm Bay. The project includes resurfacing the roadway to extend its life, drainage improvements, sidewalk enhancements, and safety upgrades.

Bicycle safety will be improved by restriping the travel lanes to provide 7-foot-wide buffered bicycle lanes from Myers Drive to University Boulevard. Pedestrian curb ramps will be reconstructed to meet current Americans with Disabilities Act (ADA) standards, and pedestrian signals will be upgraded. Enhanced lighting at signalized intersections is also included.

WHAT TO EXPECT

During construction, motorists should expect intermittent daytime single lane closures and nighttime single and/or double lane closures between 7:30 p.m. and 6:30 a.m.

Please be aware that construction activity and noise levels may vary throughout different phases of the project. Motorists should also anticipate areas of uneven pavement within the project limits, a common condition during construction when the contractor applies multiple asphalt layers in phases. Many of these roadway conditions are temporary and will gradually improve as the project progresses.

Electronic message boards and additional signage will help direct traffic through the work zone. Please note that the construction schedule may change due to inclement weather or other unforeseen circumstances. For the most current project details and lane closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

Timothy Rose Contracting, Inc.

PROJECT COST

\$10.1 million

PROJECT START

September 2025

ESTIMATED COMPLETION

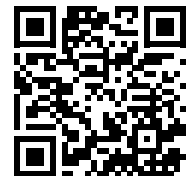

Summer 2026
