

Resurfacing and Safety Improvements

Financial Project
Identification
(FPID) No.:
451311-1

S.R. 40 from U.S. 17 to S.R. 11

Volusia County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is resurfacing State Road (S.R.) 40 from U.S. 17 to S.R. 11 in Volusia County to extend the life of the existing roadway. In addition to the resurfacing work, safety improvements will be implemented to help reduce crashes and improve driver awareness.

Other safety features include the addition of intersection warning signs that will be placed near Chesser Hammock Road to alert drivers to approaching cross traffic. Audible vibratory striping will be installed along the outside lanes throughout the project corridor to provide a tactile and audible warning to motorists who unintentionally drift out of their lane.

On the westbound shoulder of S.R. 40 near the Volusia County Speedway, "No Parking" signs will be installed to discourage vehicles from stopping in unsafe locations, improving visibility and traffic flow. "No Passing Zone" pavement markings and advance warning signs will also be placed in the area.

Guide signs are being installed at curves throughout the project limits to draw attention to roadway alignment changes.

The traffic signal at the S.R. 40 and U.S. 17 intersection is being upgraded to include a left turn arrow to allow for a safer and more efficient turning movement.

WHAT TO EXPECT

During construction, motorists can expect intermittent single-lane closures in both directions along S.R. 40. Electronic message boards and other signage will be in place to help guide traffic through the work zone. Please note that work activity and noise levels may vary depending on the construction phase, and the schedule is subject to change due to weather conditions or other unforeseen circumstances. For the most current project details and lane closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

P&S Paving, Inc.

PROJECT COST

\$4.4 million

PROJECT START

May 2025

ESTIMATED COMPLETION

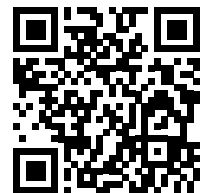

Fall 2025
