

# Nova Road (S.R. 5A) From Flomich Street to U.S. 1

## Volusia County

Financial Project Identification (FPID) Number: 450644-1

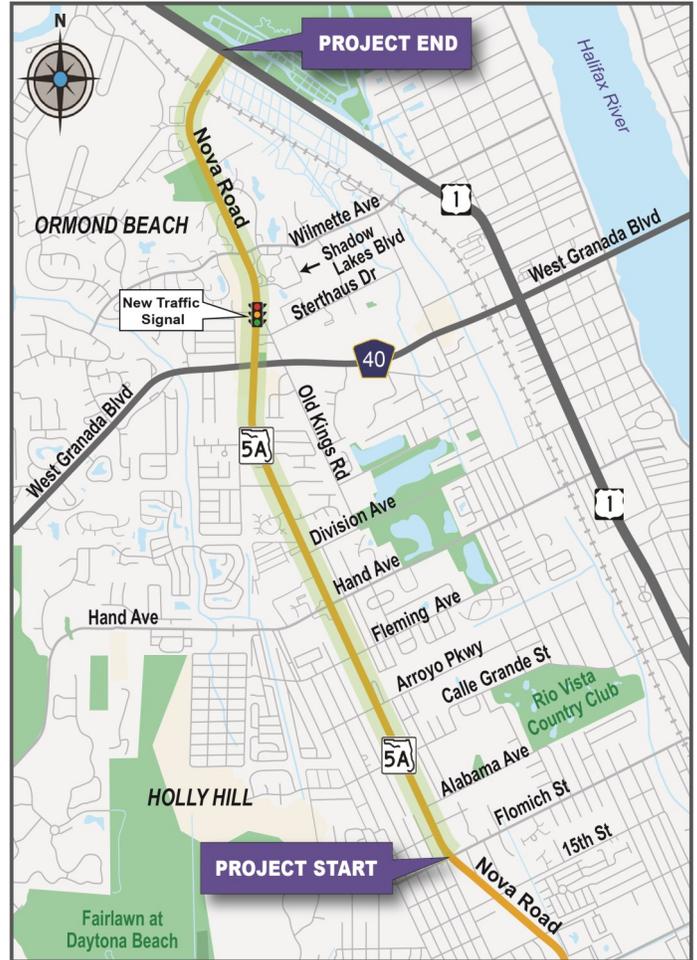

### Project Description

The Florida Department of Transportation (FDOT) is planning to resurface approximately 4 miles of Nova Road (State Road (S.R.) 5A) from Flomich Street in Holly Hill to U.S. 1 in Ormond Beach.

The project also proposes to implement safety recommendations developed during a 2023 Coalition Project. The concept includes repurposing a travel lane between Granada Boulevard and Wilmette Avenue, reducing the roadway from three lanes to two travel lanes in each direction. The existing center two-way left-turn lane will be replaced with a raised, landscaped median. A new traffic signal will be added at Old Kings Road and a wider, grassed or landscaped buffer will be created between the sidewalk and travel lanes. Improved left-turn lanes will also be included at median openings.

The enhancements within this half-mile section of Nova Road are designed to help reduce the chances for serious angle crashes, encourage safer driving speeds and improve pedestrian safety. Additional traffic and safety analyses were conducted to ensure the reduced number of travel lanes will not negatively impact traffic slow along the corridor or the surrounding roadway network.

Other improvements proposed along the corridor include upgrading traffic and pedestrian signals, enhancing lighting at all signalized intersections, and reconstructing pedestrian curb ramps as needed to comply with current Americans with Disabilities Act (ADA) standards. The project also will add an extended curb along northbound Nova Road beginning just north of the fire station to taper traffic to two through lanes approaching the intersection and better define the right turn lane.
