

Garden Street (S.R. 406) Resurfacing

From West of I-95 to Forrell Avenue

Brevard County

Financial Project Identification (FPID) Number: 450626-1

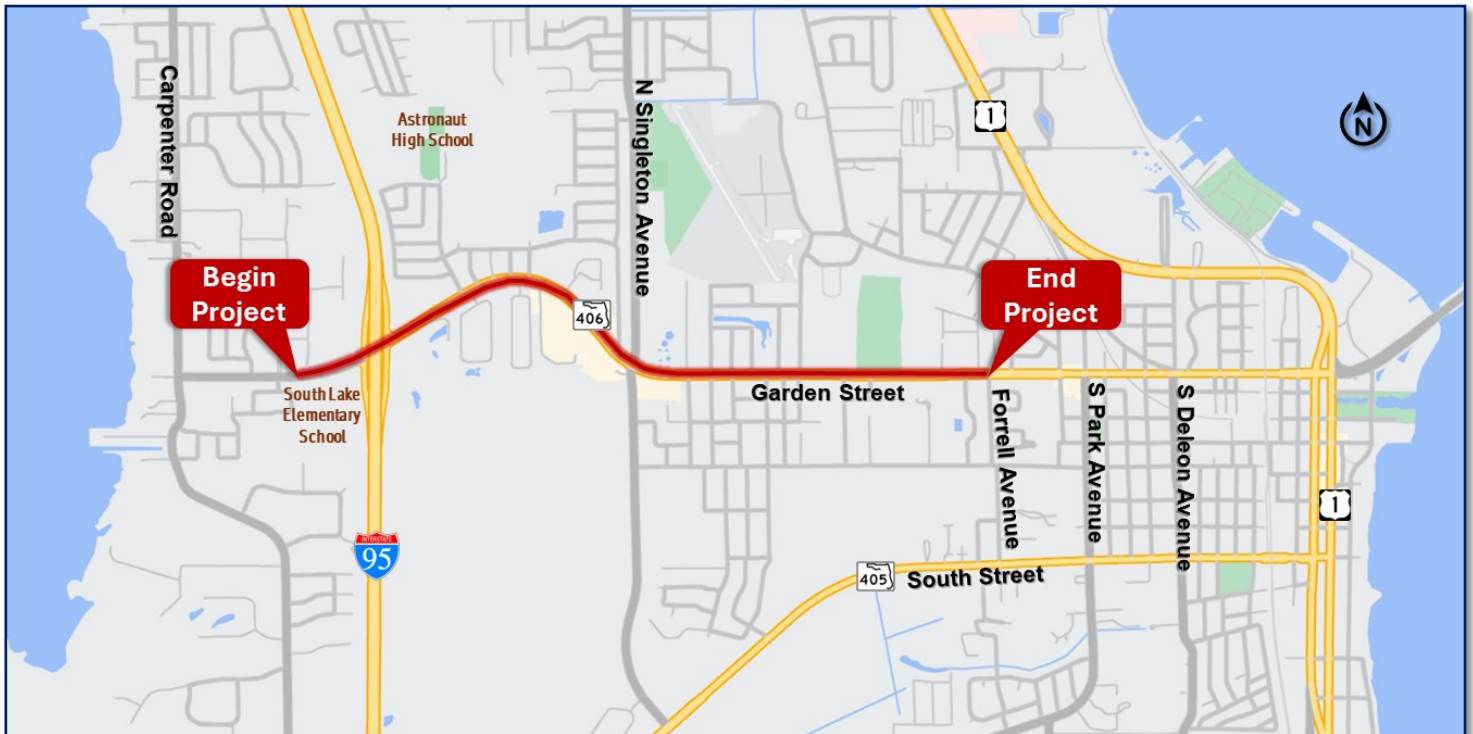

Project Description

The Florida Department of Transportation (FDOT) is proposing a maintenance resurfacing project on Garden Street (State Road (S.R.) 406) from west of Interstate 95 (I-95) to Forrell Avenue in the City of Titusville.

The project will repave all travel lanes on Garden Street within the project limits. The project proposes to create buffered bicycle lanes from east of the interchange to Forrell Avenue. Sections of unused on-street parking areas will be removed to accommodate the new lanes. Curb ramps will be evaluated and updated as needed to meet current Americans with Disabilities Act (ADA) standards. Any necessary updates to existing pavement markings and signage along the corridor will also be included.

A separate FDOT resurfacing project on I-95 from south of S.R. 50 to S.R. 46 (FPID No. 450771-1) proposes improvements to the I-95 and Garden Street interchange. The improvements include resurfacing the interchange ramps and widening the northbound off ramp to help alleviate congestion during peak hours.
